

eClinicalWorks

# Expand access to care with telehealth

Give your patients the quality of an in-office visit without having to come into the office.

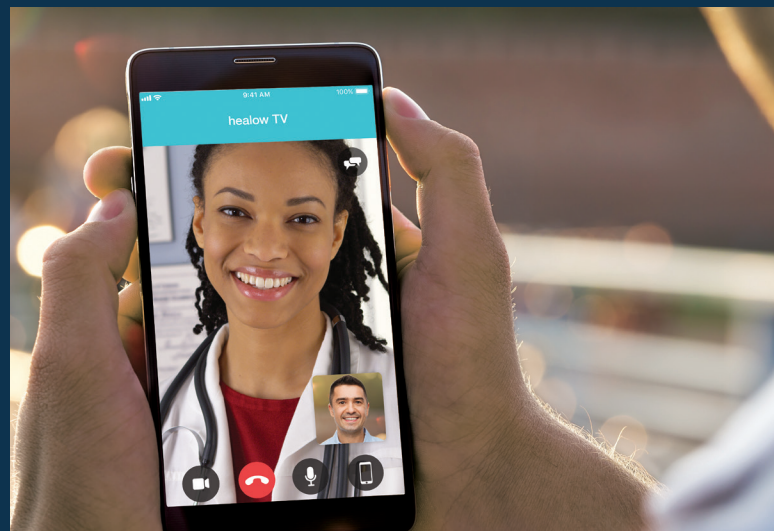

Telehealth allows providers to:

- Schedule TeleVisits or conduct hello2healow® (h2h) calls
- Publish pre-visit questionnaires
- Access patient data from integrated wearable health devices (glucometers, bp cuffs, etc.)
- Document findings, diagnoses, and treatment plans in a Progress Note
- Send patient satisfaction surveys<sup>†</sup>
- Remind patients about upcoming appointments and follow-ups<sup>†</sup>

Use telehealth with your existing EHR.

\*\$50 for 250 minutes, invoiced monthly per practice. Additional orders of 250 minutes will be automatically added for \$50 each time all minutes have been utilized in that month. Minutes will not be rolled over from month to month.

<sup>†</sup>eClinicalMessenger® rates apply

CHOOSE THE OPTION THAT'S BEST FOR YOU  
**\$2 PER VISIT**  
OR **\$50 FOR 250 MINUTES\***

Due to COVID-19, for March through June 2020, the healow telehealth solutions **package will be capped at \$100 x the number of provider(s) per month.** eClinicalWorks will bill either the healow telehealth solution pricing selected by the customer or the number of providers x \$100 per month, whichever is less.
